

We're going bananas with exciting news!

Hey Friends,

Hope you are eating well. It has been a pleasure to cook for you so far and we want to take a moment to share with you some very exciting news. The Boston Kitchen is now offering our services through an innovative new app called Plates!

Plates is a brand new platform that connects talented chefs, local food artisans and food entrepreneurs with passionate food lovers and those looking for better, healthier and more socially connected food experiences within our neighborhoods. We chose Plates as it provides a more convenient and easier way for us to share food with you. What makes Plates even more exciting is that it provides the option of food delivery, pick up, or even an in-person dining experience with us.

Plates will make it simple for you to access all our food. To be "in-the-know" just download the app on either the App Store or Google Play by searching for "Diner's Plates". Once you have set up your profile, search by setting the location to "Harvard Square" and looking for options offered by us, "The Boston Kitchen". Just select what you like and place the order, simple, isn't it? We plan to post 3 new dishes every Monday, so don't forget to hop onto the App and order your meals for the week.

We are glad to join hands with Plates in this grassroots movement to return to the kitchen. The time has come to dive in together to cook nourishing food, in small batches, with real ingredients. We have the power to take control of our own health, and it starts one meal at a time. We are fortunate that a large percentage of the Plates team is based in Massachusetts where we will act as the early adopters of this innovative platform. So as you interact with the App, you'll receive surveys and communications asking for feedback on your experience, or ways to improve, or even if you know others who might be interested in becoming a cook or diner on the platform. Please share! We all need to work together to make this successful. I encourage you to check out their website, subscribe to their blog/newsletter (we'll be featured soon!) and download the app (for Apple / for Android).

Thank you for being a loyal customer and I hope you will extend your support in this new opportunity that we are embarking upon. It really is an honor to join this global movement which starts here. We really believe Plates will change the way we share food. We look forward to cooking for you!

Best,
Boston Kitchen
